FRONT:

FLOORSHINE

CLEAN & SHINE RENOVATING FLOOR WASH

FOR USE ON TRAVERTINE, SLATE, TERRACOTTA, QUARRY, PORCELAIN AND GLAZED CERAMICS.

BACK:

LTP Floorshine

A highly effective maintenance wash for travertine, terracotta, slate, stone, quarry and ceramic floor tiles.

Cleans and protects in one application. Renovates dull looking floors. Designed to reinforce protection offered by LTP Ironwax Gloss, LTP Ironwax Satin & LTP Glaze Protector.

Directions for use:

Use LTP Floorshine regularly to maintain protection as your floor becomes dirty.

Dilute 2 or 3 capfuls per litre of warm water. Wash the floor using this solution and regularly clean out mop in a separate bucket of clean water. Allow floor to dry without rinsing.

After some years, if the floor suffers from acrylic build up or becomes difficult to clean, remove the accumulation using LTP Grimex, heavy duty grime remover. After intensive cleaning any sealed surfaces will need to be re-treated.

Coverage:

Approximately 1litre of LTP Floorshine should be sufficient to wash an average floor of 20m² approximately 40 times, depending on the concentration used.

**Attention: Keep out of reach of children
 Store in a frost proof place
 Do not discharge into drains or watercourses**

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area
