TECH DATA SHEET 2010

FRONT:

LTP Fullers Earth

for use on stone, marble, terracotta, paving, wood, fabrics and leather.
suitable for interior & exterior use

BACK:

LTP Fullers Earth

Suitable for Interior & Exterior use

Ultra-absorbant stain remover for all greasy stains (oil, grease, make-up, sebum...). For use on stone, marble, terracotta, paving, wood and fabrics & leather.

Combine with LTP Spot Stain Remover to help remove oil stains from porous floors

Directions for use:

On fabrics, leather, rugs, carpets, wood,...(recent stains)

Sponge the stain as much as possible with a clean cloth without rubbing, going from the outside to the middle of the stain.

Shake the can well and powder the stain with the fuller's earth. Leave for at least 30 minutes then delicately brush. Apply again if necessary.

On porous flooring (oil stains or old stains)

Cover the stain with undiluted **LTP Spot Stain Remover** which will help to dissolve the grease or oil.

Powder the stain with the fuller's earth. Wet the stain again with the spot stain remover and cover it once more with enough fuller's earth for the surface to remain dry. The powder will absorb the dissolved grease by capillarity.

Brush away the powder and rinse well with a sponge and water.

Recommendations:

On delicate surfaces, first make a test on a hidden area.

Attention:

Keep out of the reach of children.

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area

for beautiful surfaces we have the solutions...
